DRIVEWAY PERMIT APPLICATION

PLOT PLAN

Must show lot boundaries, topography cross-sections at 2' intervals for entire length of new driveway, location of all existing and proposed structures and buildings, septic system (tanks and drain field) or public sewer lines, public and private roads that border the property, streams or ponds (if applicable), easements or rights-of-way (if applicable), and proposed driveway location indicating distance between property line and driveway. Driveway must be a minimum of 5' from the property line.

A large grid for drawing a plot plan. The grid consists of 20 columns and 20 rows of squares, providing a scale for the application. The grid is intended for the applicant to draw lot boundaries, topography cross-sections, driveway location, and other property features as required by the permit application instructions.
